

Dear Principal and Teachers-in-charge:

**Sustainable Ecology in my Campus Contest 2024**  
**(SEMCC 2024)**  
**Invitation**

Established in 2010, the Earth Environmental Foundation (EEF) is a registered charity under Section 88 of the IRD. The members of the EEF board of directors are scholars, Chartered Environmentalists, Chartered Engineers, Chartered Accountants, Chartered Secretaries and Administrators, Hong Kong barristers, senior educators, senior trainer and coach, senior social enterprise mentors. We cooperate with youth, educational institutions and business organizations to support the cultivation of Ecological Life and ESG talents, contribute to human society and the natural ecological environment.

School campus is a very good place to nurture ecological education to enable students to learn from a natural environment in helping them to develop ecology talents and gain the knowledge, skills, motivations, values and commitment they need to efficiently manage our earth's resources and take responsibility for maintaining environmental quality.

I would like to hereby thank Dr. HO Tak-kwong and the former Education Bureau official, retired senior teacher and IMC member of local English primary school Ms. Rita Lo for sponsoring this event and serving as the officiant of the award.
